Campus Booking System

Modernize Room and Facility Booking on Campus

An intuitive and elegant solution for managing campus spaces.

Introduction & Overview

The Campus Booking System is a centralized, responsive web application designed to simplify and streamline the reservation of campus facilities.

Core Objectives:

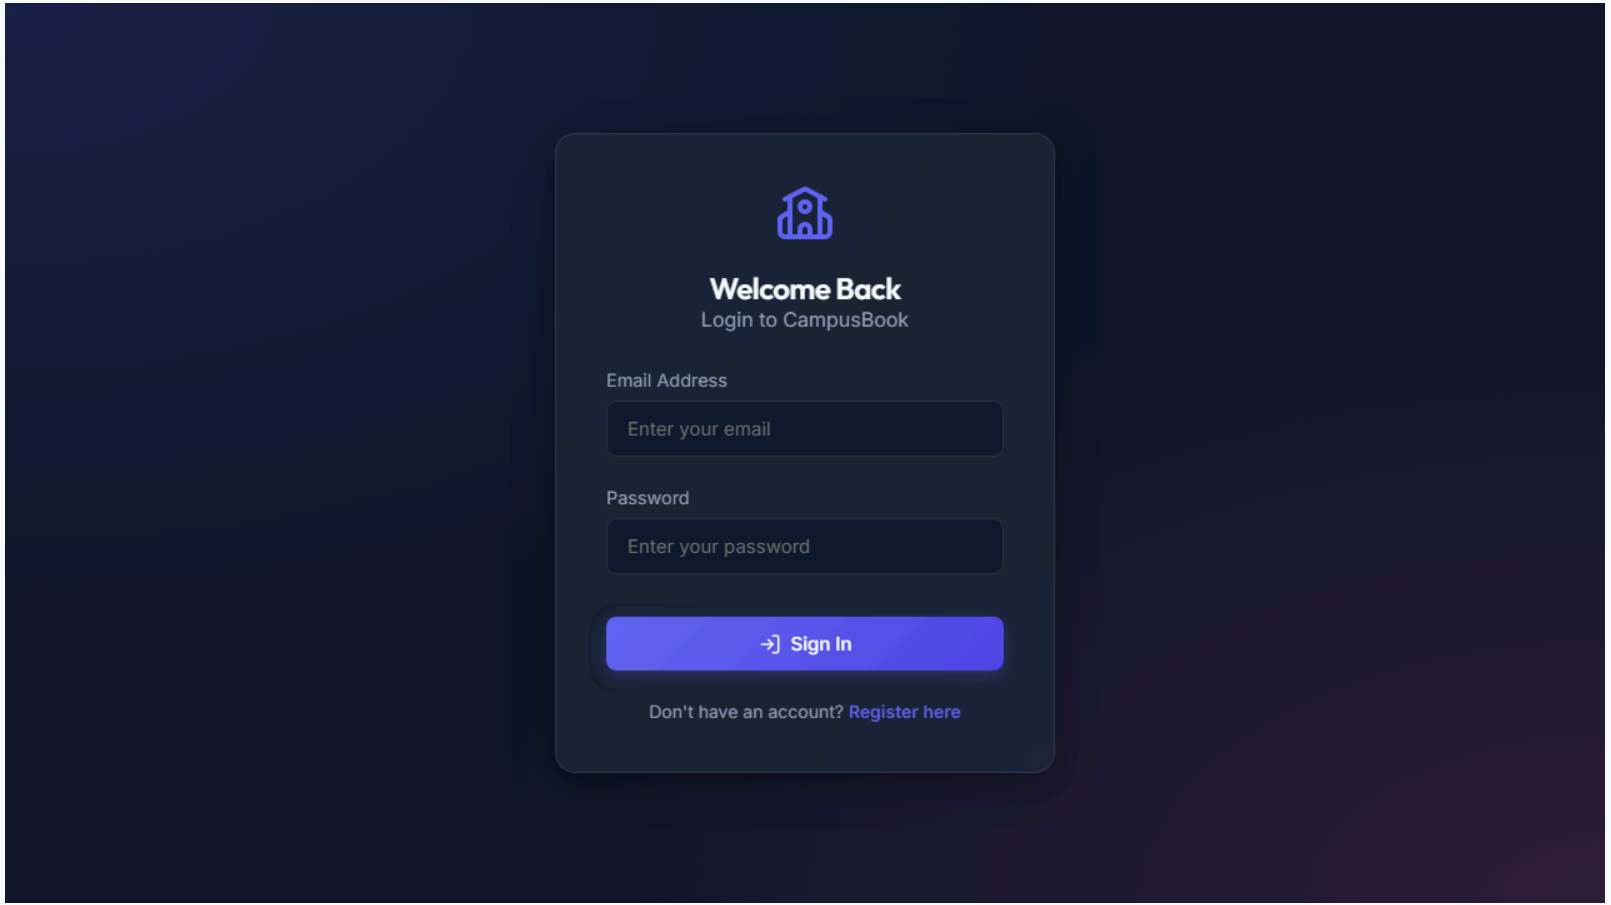
- **Eliminate** scheduling conflicts
- **Provide** real-time availability of rooms
- **Deliver** a premium, user-friendly interface with glassmorphism design elements

Features Available

- **Real-Time Booking:** Browse and book rooms dynamically.
- **Role-Based Access Control:** Distinct interfaces and privileges for Admins and Students/Staff.
- **Smart Validation:** Prevents invalid durations and respects facility operating hours (e.g., 24/7 Library, 5 AM - 10 PM regular rooms).
- **Responsive Design:** Stunning UI featuring glassmorphism, micro-animations, and responsive layouts.
- **Secure Authentication:** JWT-based secure login and registration system.

Authentication & Access

The platform provides a secure entry point for all users, distinguishing between standard users and administrators automatically.



Functions of Admin

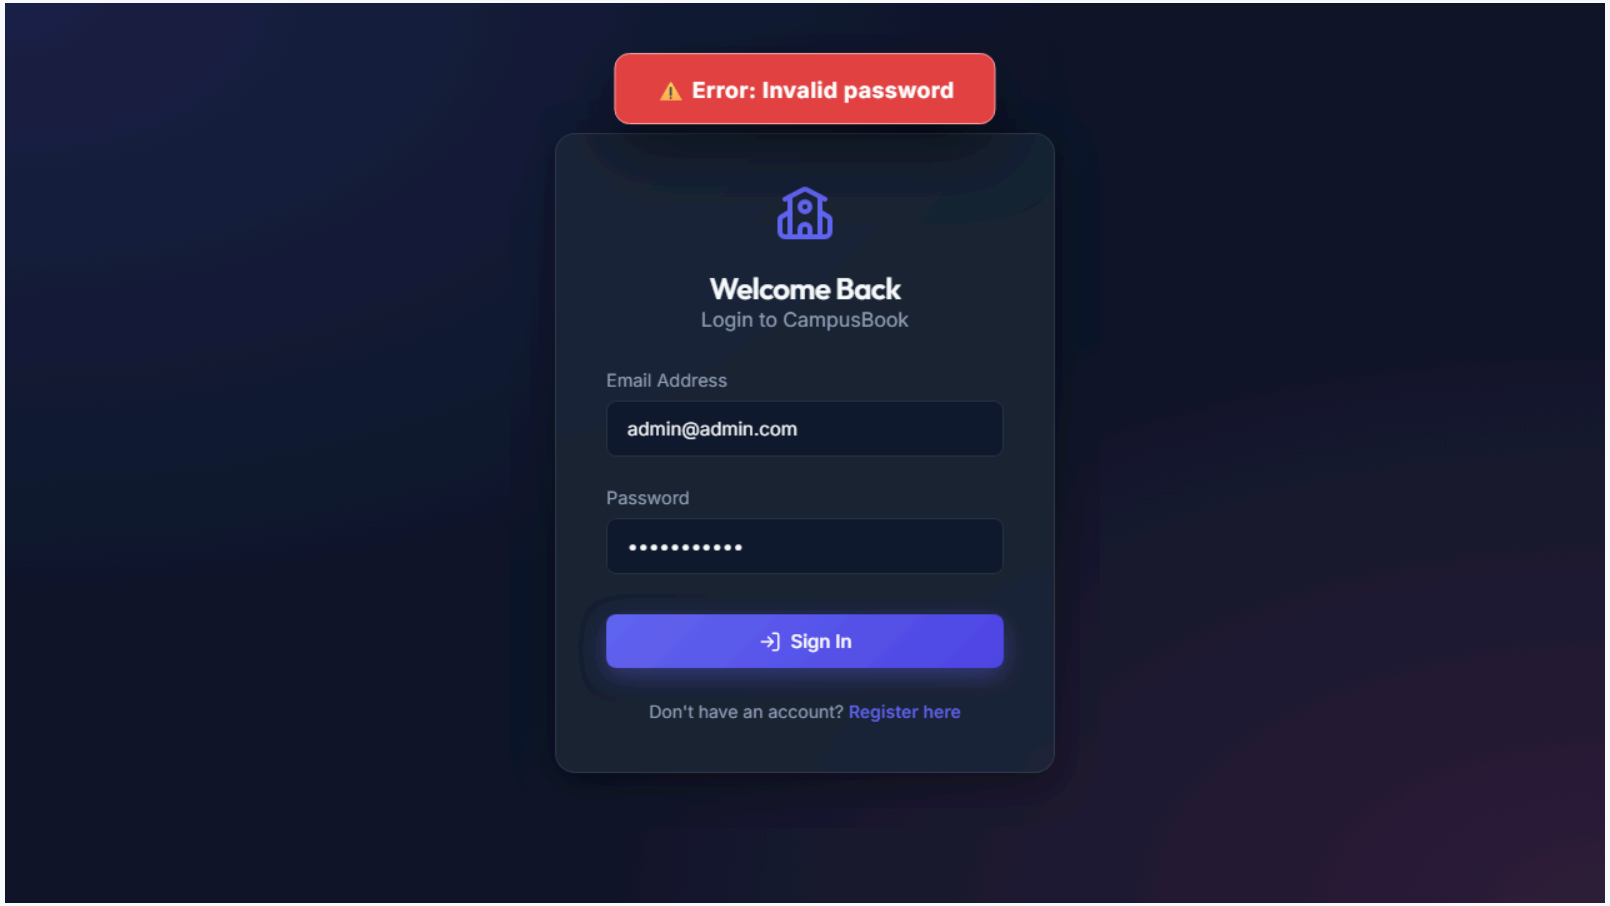
Administrators have full oversight and control over the campus facilities and booking requests.

Key Responsibilities:

- **Manage Facilities:** Add, update, or remove campus rooms and facilities.
- **Monitor Usage:** View an overview of system utilization and room occupancy.
- **Process Requests:** Approve, reject, or cancel pending booking requests from students and staff.
- **Filter & Search:** Functional filtering to easily manage various booking statuses.

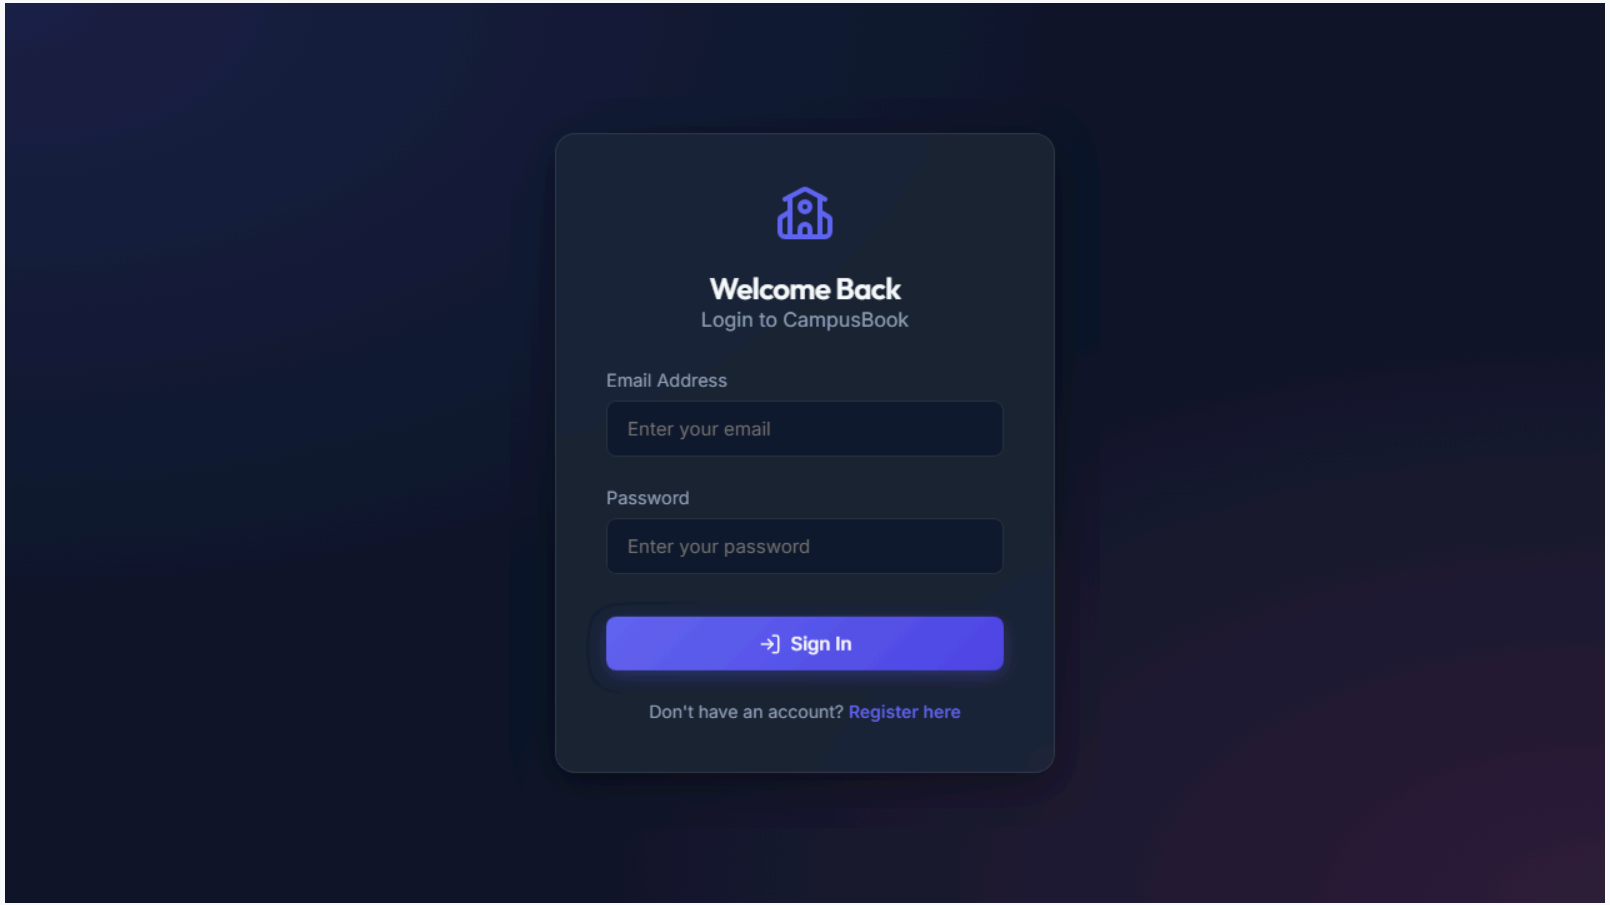
Admin Dashboard

A centralized hub for administrators to monitor pending requests and system statistics.



Admin Room Management

Admins can easily maintain the directory of available rooms, updating capacity, type, and availability.



Functions of Student & Staff

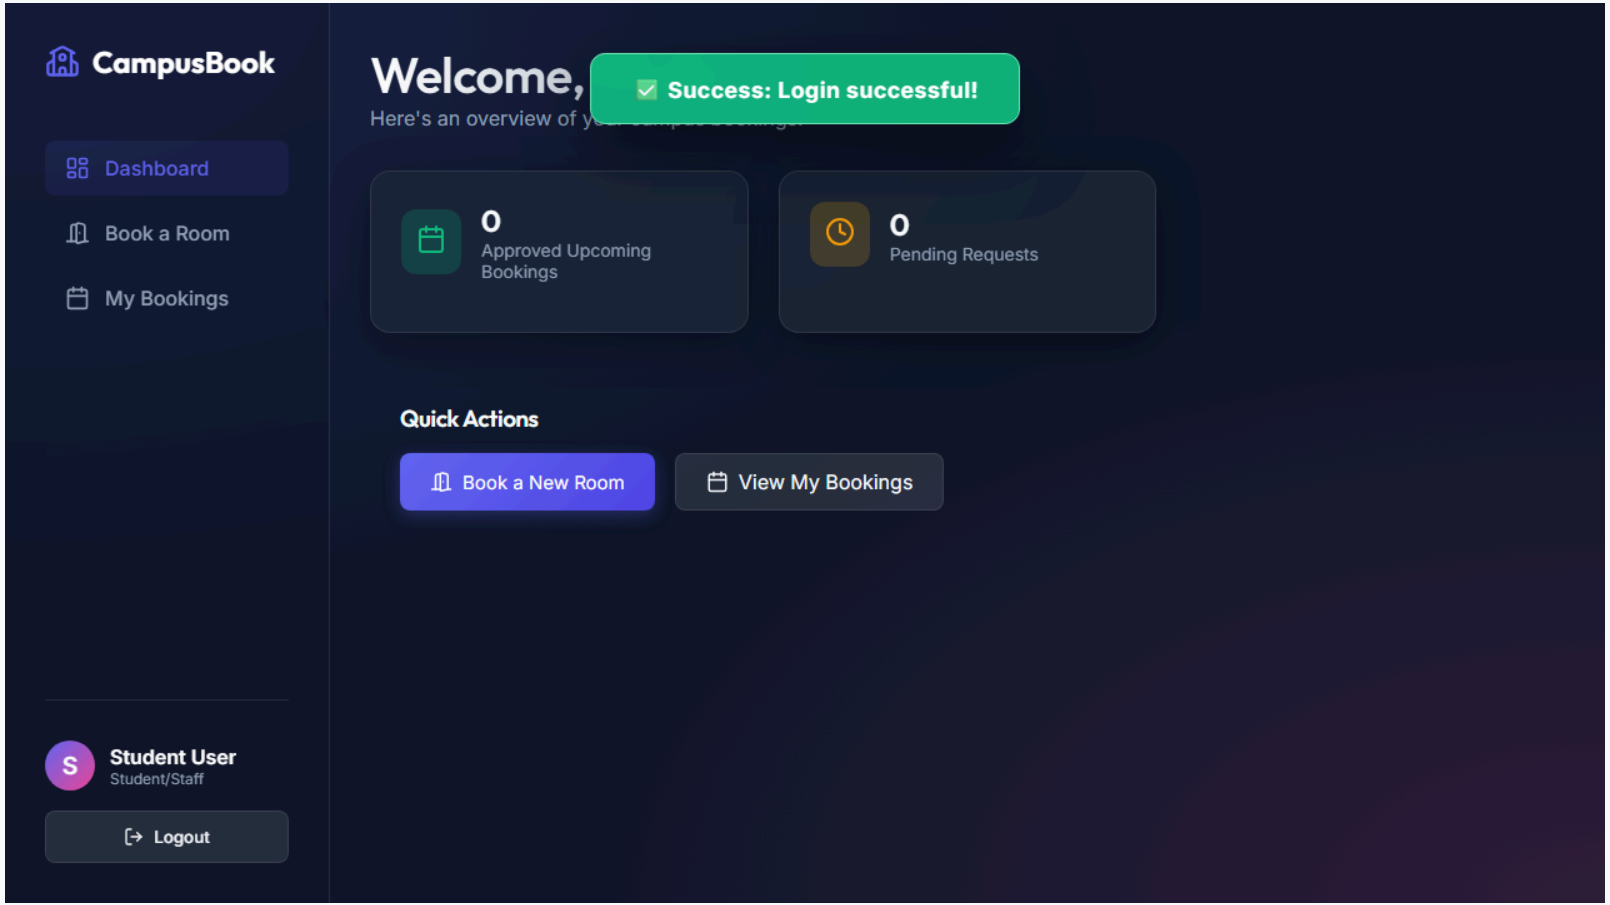
Standard users can easily find and reserve the spaces they need for their academic and extracurricular activities.

Key Capabilities:

- **Search Rooms:** Filter rooms by capacity, type, and availability.
- **Book Facilities:** Select dates and times to reserve a room effortlessly.
- **Modify Bookings:** Update or cancel existing reservations.
- **Track Status:** View the real-time approval status of past and upcoming bookings.

Student / Staff Dashboard

A personalized view showing upcoming bookings, past history, and quick access to new reservations.



Conclusion

The Campus Booking System provides a seamless, efficient, and visually stunning experience for managing campus facility reservations.

Empowering users with control and administrators with insight.
